### What benefits are included in my cover for no additional premium?

#### Special Events Increase Benefit

This is a valuable benefit that recognises your increased needs and financial responsibilities as your life evolves.

If you marry, have a child (by birth or adoption), divorce, increase your mortgage, or move house and as a result take out a mortgage, this benefit allows the sum insured under Life Cover to be increased regardless of your state of health.

#### Terminal Illness Benefit

Being told you have less than a year to live would be devastating. In such a situation you deserve to spend your money on the things that matter to you rather than worrying about bills and expenses. In recognition of this, TOWER will pay the sum insured in advance if you are diagnosed with a terminal illness and your life expectancy is no greater than 12 months.

#### Bereavement Support Benefit

We recognise there are immediate expenses associated with the death of a loved one. In order to assist with these expenses, this benefit pays a lump sum of \$5,000 in advance immediately upon written notification of the death of a life insured.

### What options can I add to my cover?

#### Inflation Protection Option

If you choose this option your sum insured will automatically be increased at the policy anniversary date by the annual rate of increase in the latest CPI. The premium will be recalculated for the increased sum insured. You will have an opportunity to decline the increase each year. There is no additional premium for this option.

#### Future Insurability Option

This option allows the sum insured to be increased, regardless of the life insured's state of health, by up to 20% on every third policy anniversary date. This could be particularly useful if your health has deteriorated since taking out the original life cover, and it has not been possible to obtain new life cover. An additional premium applies to this option.

### Making it easy

At TOWER we aim to explain information about our protection options in a language we all understand. This is why we have provided a set of user friendly explanations of some of the terms used in this brochure.

<b>benefits</b>	these are built in features of the insurance cover which provide you with additional protection in certain circumstances.
<b>CPI</b>	Consumers Price Index – the rate of inflation.

<b>options</b>	extra elements that can be added to your cover, usually for additional premium, to give you better protection.
<b>premium</b>	the amount you pay to keep your insurance active. It can be paid monthly, quarterly, half-yearly or yearly.
<b>sum insured</b>	the amount of money you are covered for should you ever have to make a claim.
